Electronics

Built-in biomechanical motion sensors
 32-bit processor for real time parameter extraction
 Optical heart rate sensor
 Vibration motor

Compatible Apps

In The Box

Swimtraxx One
 USB-C Charging cable
 Setup & usage guide

¹ The Swimtraxx One has a tapered design to optimally guide your goggle strap over your head. The maximal clearance between your head and your goggle strap is 10.3mm.

² Battery life varies by use and configuration; actual results will vary

³ One workout is considered to be two hours of swimming

⁴ The Swimtraxx One had been tested to fit comfortably with the most common goggle designs

⁵ The Swimtraxx One can be worn on both sides of the head, so you can wear it in optimal comfort
